EHS PRODUCT NOTIFICATION

EU SCIP Format

opesus EHS Product Notification (EPN) for EU SCIP format is a comprehensive solution that supports the end-to-end process of SCIP notifications to fulfill the legal obligation in the context of the Waste Framework Directive (WFD).

With EPN for EU SCIP format, you can:
- create notifications that meet the IUCLID format requirements
- submit notifications via system-to-system integration (S2S)
- keep an overview of products that require a SCIP notification
- manage REACH regulatory content
- handle SCIP declarations within your supply chain
- manage submissions to the SCIP database within your in-house SAP ERP system

What is the SCIP database?

The Substances of Concern In articles as such or in complex objects (Products) gathers information about hazardous substances in articles. The aim of the SCIP database is to improve transparency on hazardous substances used in articles.

Is your company affected?

Companies producing, importing, or supplying articles containing substances listed on the ECHA Candidate List in concentrations above 0.1% weight by weight on the EU market must submit information regarding these articles to the SCIP database.

Benefits of EPN SCIP Format

- Direct integration into SAP
- System-to-system submission to ECHA
- Keep submissions up-to-date
- Leverage SAP data to minimize efforts
- Proven platform for IUCLID reporting
- Highly configurable
- Monitor and act on relevant changes
- Data validation ensures quality of data
- Reuse supplier dossiers
- Handle complexities of legal entity
- Efficient management of notifications
- Comply with WFD obligations
- No 3rd party platform risks
- Easy generation of SCIP dossiers
- Protect confidential business info

About EHS Product Notification

opesus EHS Product Notification (EPN) helps customers fulfill their legal obligation for product notifications by leveraging data in their SAP ERP.

The innovative architecture allows the opesus EPN engine to support various product notification formats. This allows customers to choose which formats they wish to license and when they would like to license them.

Great functional fit.
EPN is feature-rich and configurable

Innovated by technical and subject-matter experts.
We work closely with authorities, industrial associations, and leading companies.

Market-leading solution for SAP customers.
More than 70 customers are using EPN.
